A Swindler -- Our Georgia exchanges gives an account of an incividual calling himself W. H. THORNBURY, and claiming to be an Opp Frillow bailing from Appointation Lodge No. 4, Petersburg, Va. He is of medium height, spare made, dark hair and whiskers -has a scar under the external corner of his left eye, and is very fluent " He r presented himself as in distress at Macon and other points in Ga., and succeeding in obtaining money from the members of the order of Odd Fellows. His story was that he was an engineer and machinist, and had teen crippled by the amashing up of a Locomotive which he was running.

We will add that the same individud came to this city a few days ago, with pretty much the same story, and succeeded in obtaining clothing and mousy from the members and Lodges of this place. He was fr e to exhibit the bruises received by the treacherous Locomotive, and had, in addition, a bone fe'on on his finger, which prevented him from working at his trate. He professed, while here, to hail from Jefferson Lodge No. 10, Richmond Va.; and to have a wife and three call free in that city. He is a shrewd scoundrel, well posted in the signs and pasewords of the Order.

DAILY PATRIOT OFFICE, APRIL 23, 1857.

Weekly Report of the Markets. Remarks. The past week has been marked by comparative duliness n nearly all the I ading articles of trade. Provisions, however, have been brisk, while a fair business has been lone in the retail dry goods line. The weather, for the greater part of the week, has been cold, and disagreeable, alternating between snow, rain, high winds and occas-

ional gleams of sunshine. The river has remained about stationary, and there is a dep h of water on Harpeth Shoa's of about three fe t. Business on the wharf continues duly Freights are scarce, but the light draught steamers still find enough to keep them plying between this and other points either below or above. Monetary and Financial.

In reviewing the market for the past week, we have many changes to notice, both in money and commercial circles. Money has been more stringent during the past few weeks, and has been attended with some difficulty, in receiving enough to supply the regular demand. Some of our banks are curtailing their operations to a considerable extent, in consequence of some misunderstanding with some of the foreign banks, while the rest of them are doing all they can to releve the wants of the community. The out-door rate for g o tuymes is a out one per cent a month, while other name of less streng h, may be quoted from 1%a2 per cent per month. I tooks are in more demand, at a slight advance. Fennessee 5 are selling in New York at 58 to 59 per cent; Nashville and Chattanooga endorsed by the State 50a81 per cent Davidion county bonds 71 per cent; Planters and Union par, but none to be had. Exchange is ac ive and firm on New York, at 1/2 premium; on New Orleans 1/2 : 3/4 premium, and deli. Land warrants, are again tending upward, and we now quo'e 40's at 165; 80's at 99; 120's at 9); 160's at 98. We shall in a few days, look for sq salls among the maller try of our free bank , as we are informed by the comptioller that he will in a day or two make a call on all the frag banks for an additional seposit of 10 per cent, which should have been made long ago to been have in strict complance with the law, many cfour lit le bank; that are throwing out their circulation for the benefit of the interest, are aborit g under the delusive hope, or belief, that the law does not app.y to them, but they will find out that it does, in a lew days, the Attorney General and the Supreme Court have both decided that it does. Several of our free banks are now taking in their circula-

tion, and are ready and waiting for the demand of the comptroller, which demand we hope will be made very soon. Commercial.

DARES BER IN. A MONG a lot of about forty negroos, I have the facet, fan or boy, fifteen years old, in Tennerson April 5, 1807. ALLO W. PORTER.

G. W. KIBBEE W BO has been for many years located. Tennessee as a Tuner and Revairer. Pianos, would respectfully call the attention of the musical public to the fact, that he via or the musical public to the lact, that he va-ited New York last year for the purpose of making arrang ments with the best Plano Forte makers to sell their instr ments with the best Plane Forte makers to self their Instruments. After spending several weeks in that great metropolis, visiting the different manufacturers of note, he
came to the conclusion—and who might be judge in this
case if a Taper of testive tears is not—that the Planos of
of Lighte, Newton & Braddury's should be preferred to all
others. He accordingly made an agreement with them,
whereavy he is enabled to furnish Pianos at retail cost in
New York, treight and charges added, so that every one
who beys of him may know that be is not paying more for
his actic's than he would be charged by the manufacturers
themselves if he were to wish them in person. This Howe
is making twenty Pianos new week, a much greater number themselves if he were to visit them in person. This Howe is making twenty Pianos per week, a much greater number than is made by any other in the United States, and for purity and volume of tone and fineness of finish, both inside and out, the proof is that they stand wholly unrivalled These Pianos were awarded the first premium by the juries of the World's Fair and the fair of the American Institute in 1803. Among the many Musicians and Amateur, who have from time to time examined these Instruments, testified to their superiority, and recommended them to their friends, are lowers. Maken and Thos Hastrisca, of world-wide criebrity, it. C. Time, President of the Philharmonic Society, N. Y. Theoneas Flavirish, conductor of the Philharmonic Society, N. Y. Greate F. Root, jurer in the Fair of the American Institute, in 1858, J. Leatt, U. C. Hill, F. H. Nass, Floward Hows, Jr., &c., &c.

Geo, J. Wein, of Boston, the well known and popular Teacher and Composer, after examining these instruments and testifying to their entire superfority, opened a House in Boston, the central point of the case renowned Chickering, and within a short time sold upwards of Porty Planos to his music I friends and acquain ances, many of them of the highest style and finish—\$600 or £7100

he highest style and finish—\$500 or \$710 Thinks the first New York Plano Agency ever established in Boston.
Gao P Butarow, of New York, the distinguished on er, Organist and Planist, was authorized by the New York Harmonic Society to select the best Place that could be Harmonic Society to select the best Piato that could be made for their use. He gave the preference to Lights, Newton & Bradbury's "large scale" over all others Grand's not excepted, and purchased one for the use of the Society. But Mr. Kinnen deems it unnecessary to multiply words to the people of Middle Tenuessee. The fact, that he has been for many years a successful Tuner among them, and has met with, and Tuned and Repaired Pianos of overy make, should inspire confidence in his judgment; and the fact that he regularly visits them twice a year would show that it is more to his interest to sell them a good Piano than it could be to that of any other dealer. As to the price and quality of these Pianos, Mr. Kinner exhibits the price list and description of the Makers, which contains price list and description of the Makers, which contains twenty different styles at prices, ranging from \$250 to \$800, at their Ware Rooms, No. 421, Broome Street, New York. So there can be no decept on practiced with reference to price or style of finish, all hough the Planos are not seen until de tvered, and he is authorized by Mesers, Lighte, Newton & Bradbury to give warrantees of all their Pianos Mr. Kunss also visited the well known Melodeon Estabhment of Carbart, Needham & Co , No. 97. East 28d St., New York, and made an arrangement with them to farnish Melodeon, so that he can sell them at their New York retail prices, freight added. These Instruments have become very popular in the Eastern and North-Western States, and

truly deserve the notice of all those who are "Charmed by concord of sweet sounds." He has also an arrangement with the firm of Firth, Pond & Co., New York, which enables him to furnish Sheet Music and small Musical Instruments at New York pices. Mr. Ktessg bas for aed a partner-hip in the sale Pianes with D. B. SHRIVER, of Shelbyville. Tenn., who will keep a lurge assortmenting elegant Furnitare Ware Rooms on Depot stre He is also engaged with THON. J. HAILEY, of Columbia, Tenn., who will keep a good number in his Daguerrian Rooms at the Masonie Hall.

The eventlemen will sell Pinnes as cheap as they can be ought at the Ware-rooms in New York, after adding freight and charges. They are also supplied with Carhart, Need-ham & Co.'s Melodeons, which they will sell on the same

MR. KIBBIE will keep all Pisnos wild by the above named entionen in tune to one year, without charge, and will live written warrantees by the authority of Lighte, Newn & Brasburry on his first vi it. All communications from the country on the subject of innos or Meindeons or of Tuning and kepairing will be promptly attended to. Families residing in the city can leave orders at my residence, opposite Odd Fellow's Hall, or address through the Post-Office, G. W. KIBBEE, March 11, '57. -1y.
